

Venus Independent School District

Integrated Pest Management

Venus ISD is committed to following integrated pest management guidelines in all pest control activities that take place on district property.

Integrated pest management (IPM) is a pest management strategy that relies on accurate identification and scientific knowledge of target pests, reliable monitoring methods to assess pest presence, preventative measures to limit pest problems and thresholds to determine when corrective control measures are needed. Under IPM, whenever economical and practical, multiple control tactics shall be used to achieve best control of pests. These tactics shall possibly include, but not limited to, the judicious use of pesticides.

In accordance with 4 TAC 7.150 and Texas Occupations Code section 1951.212, the district's IPM program, shall govern the district's use of pesticides, herbicides and other chemical agents for the purpose of controlling pests, rodents, insects and weeds in and around district facilities.

The Superintendent shall designate the IPM Coordinator(s), who shall be registered with the Texas Department of Agriculture. The IMP Coordinator(s) shall receive training according to law.

The IPM Coordinator(s), in addition to the responsibilities set out in CLB (LEGAL), shall coordinate with the appropriate district administrators or other designated and trained employees pesticide or herbicide applications in accordance with law. The IPM Coordinator(s) shall determine when an emergency situation exists; an exception to the 48hr. notice requirement may be made.

No other employee or other person or entity shall be permitted to apply a pesticide or herbicide at a school facility without the prior approval of the IPM Coordinator and other than in the manner prescribed by law and the district's integrated pest management program.

IPM Coordinators: Jeffery Chamberlain & Sandy Gaskins (972) 366-3642 x2701
IPM Certification Completion Date: 2/9/2022
